PROFESSIONAL SUMMARY

Flutter Developer with 1+ year of production experience building and maintaining cross-platform applications for Android and iOS, with releases across Google Play and the Apple App Store. Experienced in Flutter, Dart, Riverpod, GetX, BLoC, REST APIs, Agora-based audio/video calling, payment and booking flows, and AI-powered features such as chatbots and LLM-assisted planning. Brings end-to-end feature ownership, Flutter team leadership, and primary development responsibility for production mobile applications.

PROFESSIONAL EXPERIENCE

Softvence

Aug 2025 - Present

Flutter Developer

- Lead a 4-member Flutter team, assigning tasks, reviewing implementation, and coordinating delivery with UI/UX and backend teams.
- Own selected modules as the primary Flutter developer, building maintainable features with Feature-First Clean Architecture and reusable components.
- Integrate REST APIs, WebSocket, Firebase, secure storage, and third-party SDKs for AI workflows, Agora-based calling, booking, payments, and real-time messaging.
- Resolve production issues, optimize performance, and support the release and maintenance of 4 live apps across Google Play and the Apple App Store.

TECHNICAL SKILLS

- **Mobile Development** — Flutter, Dart, Native Android (Kotlin, Java, XML), Material Design
- **Architecture & State Management** — Feature-First Clean Architecture, MVC, Riverpod, GetX, BLoC
- **Networking & Real-Time** — RESTful APIs, WebSocket, Server-Sent Events (SSE), Agora RTC, Third-Party SDK Integration
- **Firebase Services** — Firebase Authentication, Cloud Firestore, Cloud Functions, Firebase Cloud Messaging (FCM)
- **Analytics & Monitoring** — Firebase Analytics, Google Analytics (GA4), Crashlytics, Custom Event Tracking
- **Local Data & Security** — Hive, SQLite (sqflite), SharedPreferences, GetStorage, Flutter Secure Storage
- **Specialized Integrations** — AI/LLM APIs, Google Maps SDK, Places API, Stripe, In-App Purchases, RevenueCat
- **Testing & Performance** — Unit Testing, Widget Testing, Flutter DevTools, Performance Profiling, Debugging
- **Tools & Deployment** — Git, GitHub, GitLab, Postman, Figma, Google Play Console, App Store Connect, Android/iOS Release Builds

SELECTED LIVE PRODUCTION APPS

Go Get A Genie - AI Project & Task Management App | ▶ [Play Store](#)

- Owned the end-to-end Flutter implementation, delivering workflows for projects, tasks, nested subtasks, collaboration, archiving/trash, and due dates.
- Integrated ASK/CREATE AI features, subscriptions, prompt limits, push notifications, profile/settings, and secure session management.

Tech: Flutter, Dart, Riverpod, REST APIs, AI APIs, FCM, Local Notifications, RevenueCat, Secure Storage

Rescue Transit - Animal Rescue & Transport Coordination App | ▶ [Play Store](#) | 🍏 [App Store](#)

- Implemented 60+ production screens and integrated 120+ RESTful API endpoints across four role-based experiences: Shelter, Foster, Adopter, and Driver.
- Delivered animal discovery, adoption/foster requests, transport coordination, messaging, AI chat, document management, payment flows, push notifications, and Google Maps-based location features; supported Android and iOS releases.

Tech: Flutter, Dart, BLoC, REST API, FCM, Crashlytics, Analytics, Google Maps/Places, Stripe, Secure Storage

Deep Quran - Islamic Learning & Quran Reading App | ▶ [Play Store](#) | 🍏 [App Store](#)

- Owned approximately 60% of the Flutter implementation, delivering Quran reading, audio, translations, QCF Mushaf, memorization, and gamified learning features.
- Integrated REST APIs, authentication, Firebase Cloud Messaging, secure storage, and payment flows; supported performance and Android/iOS releases.

Tech: Flutter, Dart, GetX, RESTful APIs, Firebase Auth, FCM, just_audio, Secure Storage, In-App Purchases, Xendit

Med Connect - Healthcare Appointment & Telemedicine App | ▶ [Play Store](#) | 🍏 [App Store](#)

- Implemented 25+ screens and integrated 40+ APIs across appointments, messaging, profiles, and document management.
- Built multi-role workflows with WebSocket chat, file sharing, FCM, and Agora video/audio consultations.

Tech: Flutter, Dart, GetX, Dio, Socket.io, Agora RTC, Firebase Cloud Messaging, Secure Storage, Localization

OPEN SOURCE CONTRIBUTIONS

curved_app_bar — Flutter Package | 📦 [pub.dev](#)

- Published a cross-platform curved AppBar package with customizable shapes, gradients, navigation controls, overflow actions, status-bar contrast, and optional animations.
- Designed a reusable, state-management-independent API for direct use with **Scaffold.appBar**.

Tech: Flutter, Dart, Material Design, Package Development

EDUCATION

Bachelor of Science in Computer Science and Engineering

Uttara University, Dhaka | 2025 - Present

Diploma in Engineering (Computer Technology)

Kurigram Polytechnic Institute, Kurigram | 2020 - 2024 | CGPA: 3.65/4.00
